# PUBLIC NOTICE – ROAD CONSTRUCTION BIA ROUTE 6 (PORCUPINE CUT ACROSS ROAD)

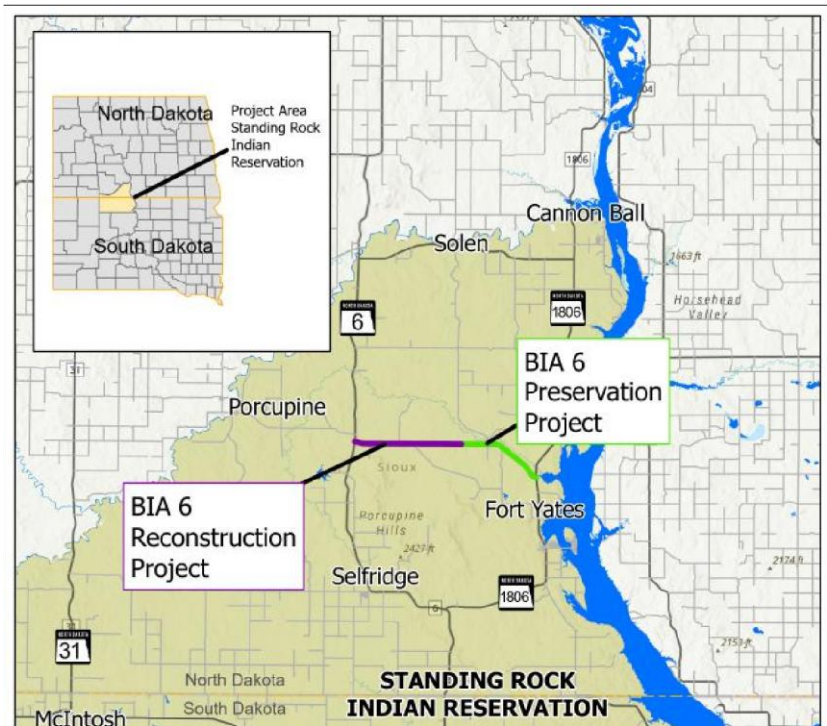
Beginning **Monday, August 3, 2026**, construction crews will begin culvert replacement on the western half of BIA Route 6 for the Reconstruction Project.

The road will be **OPEN TO LOCAL TRAFFIC ONLY** for the duration of this work.

**DO NOT** drive around barricades. Culvert excavations and open trenches may be left open overnight and on non-work days. Going around barricades is extremely dangerous and could result in serious injury or vehicle damage.

This phase of work is expected to last approximately 6-8 weeks. Once graveling operations begin, traffic will be allowed through with a pilot car escort.

Please plan alternate routes, allow extra travel time, and watch for construction equipment and personnel.

Questions may be directed to the Standing Rock Transportation Planning & Tribal Roads Director Larissa Young, @ 701-301-7463.


Thank you for your patience as we work to improve our roads for the safety of our communities.
